AUTHOR, ACTIVATE AND DEPLOY BUSINESS RULES

OVERVIEW

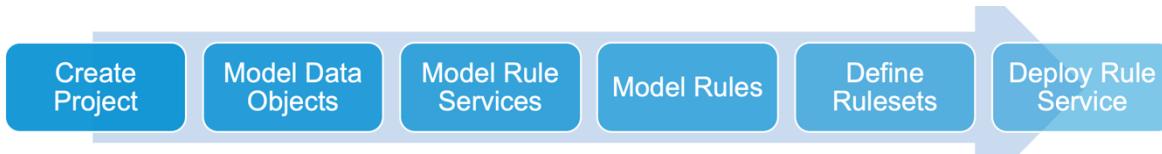

Estimated time: 45 minutes

The exercise is based on authoring and managing rules for capital expenditure, using SAP Cloud Platform Business Rules. The rule determines the approvers based on investment details.

The screenshot shows the SAP Cloud Platform Business Rules interface. At the top, there are navigation links: 'Manage Projects / Capital Expenditure Rules /' and buttons for 'Import', 'Export', 'Edit', and 'Validate'. Below this, a title 'Determine Approvers Rule' is displayed next to a grid icon. Underneath, there are two tabs: 'Details' and 'Decision Table', with 'Decision Table' being the active tab. The decision table has a header row with columns: 'If' (containing 'Investment.Country', 'Investment.Type', and 'Investment.Total Cost'), 'Then' (containing 'Central Manager User...', 'Local Manager User ID', 'Local Manager Appro...', and 'Central Manager Appro...'), and an empty column on the right. The body of the table contains six rows of data, each defining a condition and its corresponding approvers. The data is as follows:

If	Then				
Investment.Country =	Central Manager User...	Local Manager User ID	Local Manager Appro...	Central Manager Appro...	
'Germany'	'ibpmuser000'	'ibpmuser000'	true	true	
'India'	'varun.rao.001'	'kiran.shah.012'	false	true	
'India'	'varun.rao.001'	'kiran.shah.012'	true	true	
'United States of ...'	'frank.mathew.023'	'peter.collins.1441'	true	false	
'United States of ...'	'frank.mathew.023'	'nina.hanks.001'	true	true	

In this exercise, you will learn about different enterprise rule models and how to author them using Manage Rules Application. You will create, configure and activate these business rules models, and learn how to deploy the rule service to cloud for consumption.

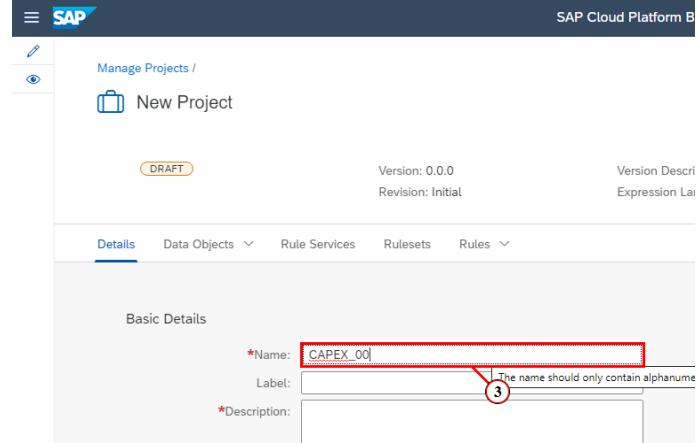

Exercise Description:

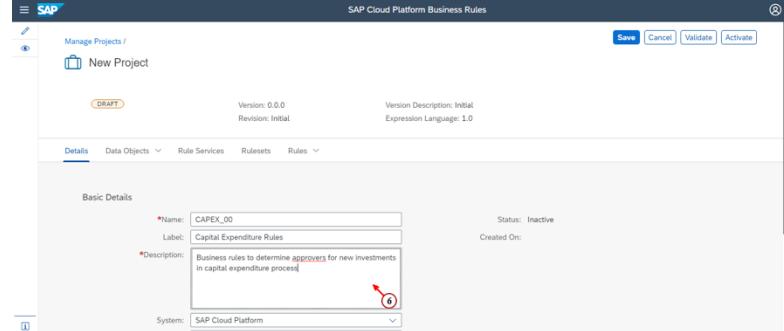

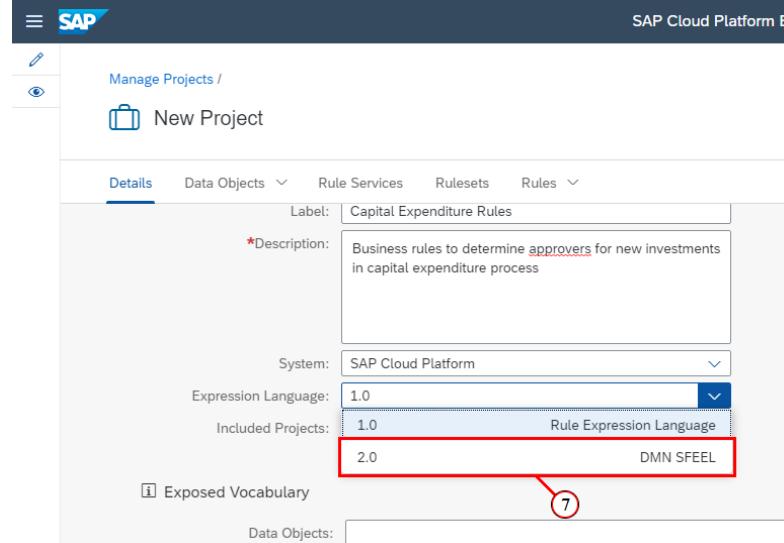

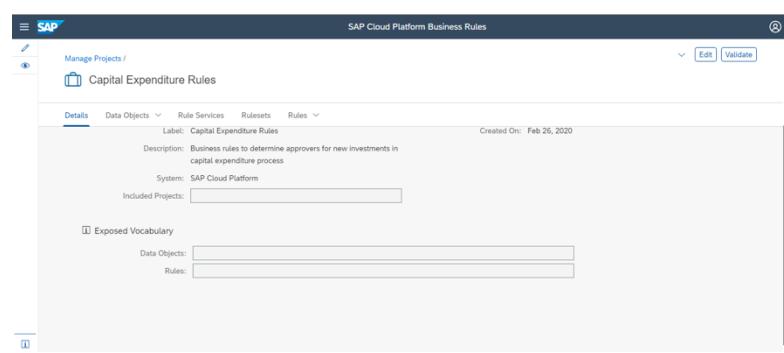

In this exercise you will do the following:

- *Create and Configure Project*
- *Create Data Objects*
- *Configure Data Object with Value Help*
- *Create Ruleservice*
- *Create Decision Table*
- *Create Ruleset*
- *Activate Projects and other Models*
- *Deploy Ruleservice in Cloud Platform*
- *Create Rule Version*
- *Test Business Rules*

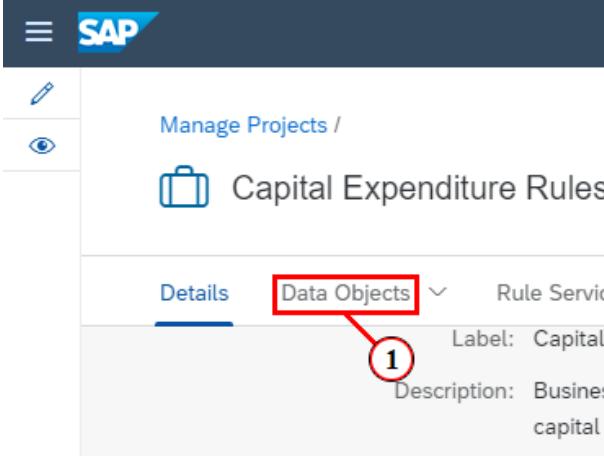

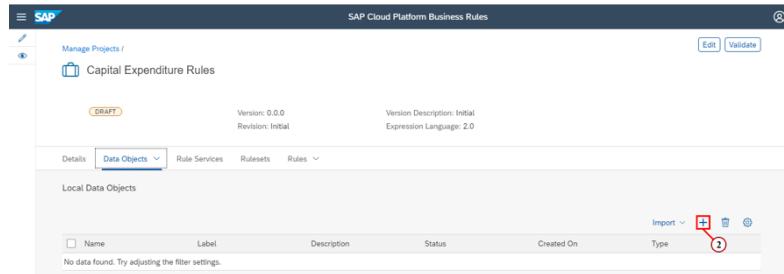

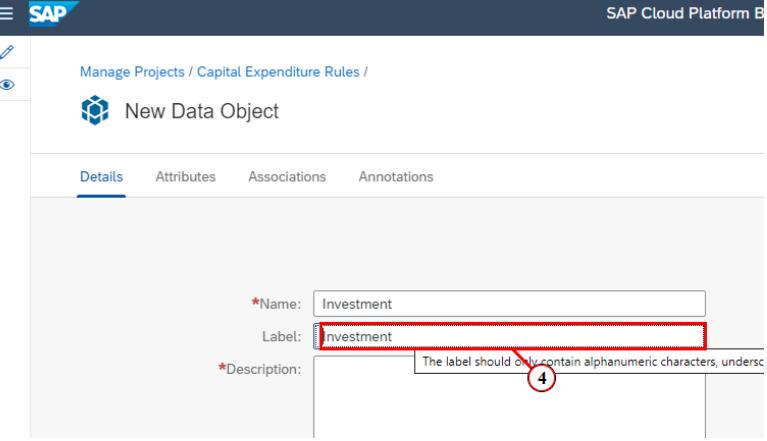

CREATE PROJECT

Explanation	Screenshot
<p>1. Open Workflow Management Launchpad and click to open Manage Rule Projects.</p> <ul style="list-style-type: none"> • Login with trial username and passwords 	 <p>The screenshot shows the SAP Cloud Platform Workflow Management Launchpad. Under the 'Development Tools' tab, there are several cards: 'Manage Packages', 'Configure Visibility Scenarios', and 'Manage Rule Projects'. The 'Manage Rule Projects' card is highlighted with a red box and has a hand cursor icon over it, indicating it is the target for the first step.</p>
<p>2. Click + to create a new business rules project.</p>	 <p>The screenshot shows the 'SAP Cloud Platform Business Rules' interface under the 'Manage Projects' section. A new project named 'DetermineEquipment00' is listed with a status of 'Active' and a creation date of 'Dec 8, 2019'. A red box highlights the blue '+' button in the top right corner of the table header, which is the target for the second step.</p>
<p>3. Configure Project Name 4. Click on the Name text box.</p>	 <p>The screenshot shows the 'New Project' configuration screen. The 'Basic Details' section contains fields for 'Name', 'Label', and 'Description'. The 'Name' field is highlighted with a red box and a circled number '2' below it, indicating it is the target for the third and fourth steps.</p>

Explanation	Screenshot
<p>5. Enter CAPEX_00 in the Name box.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. In the 'Basic Details' section, the 'Name' field is filled with 'CAPEX_00'. A red box highlights this field. To its right, a validation message 'The name should only contain alphanumeric characters' is shown, with a circled number '3' pointing to it.</p>
<p>6. Enter Capital Expenditure Rules in the Label box.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. In the 'Basic Details' section, the 'Label' field contains 'Capital Expenditure Rules'. A red box highlights this field. To its right, a validation message 'The label should only contain alphanumeric characters, underscores, and hyphens' is shown, with a circled number '4' pointing to it.</p>
<p>7. Enter Capital Expenditure Rules in the Label box.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. In the 'Basic Details' section, the 'Label' field contains 'Capital Expenditure Rules'. The 'Description' field contains 'Business rules to determine app...'. A red box highlights the 'Label' field. To its right, a validation message 'The description should only contain alphanumeric characters, underscores, and hyphens' is shown, with a circled number '5' pointing to it.</p>

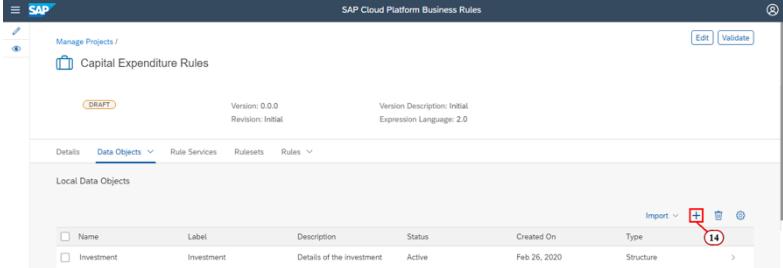

Explanation	Screenshot
<p>8. Enter Business rules to determine approvers for new investments in capital expenditure process in Description box.</p>	
<p>9. Click to select 2.0 as the Expression Language.</p>	
<p>10. Click Save.</p>	
<p>Your business rules project is created with the needed configurations.</p>	

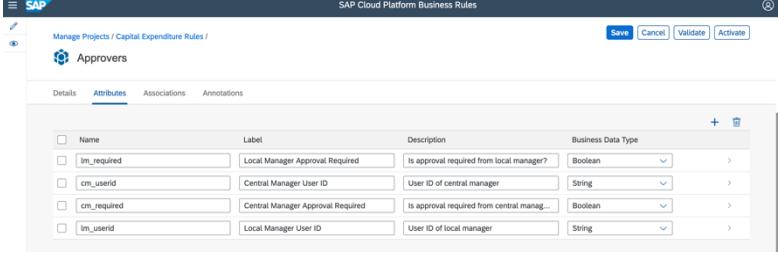

CREATE DATA OBJECTS

Explanation	Screenshot
<p>11. Click Data Objects.</p>	
<p>12. Create Data Object. 13. Click +.</p>	
<p>14. Enter Investment in the Name and the Label box.</p>	

Explanation	Screenshot
<p>15. Enter Details of the investment in the Description box.</p>	
<p>16. Click Attributes.</p>	
<p>17. Click .</p>	
<p>18. Enter Type in the Name and Label box. 19. Enter Type of investment in the Description box.</p>	

Explanation	Screenshot																
<p>1. Click .</p>																	
<p>2. Repeat the steps to create more data object attributes with following details:</p> <table border="1" data-bbox="164 720 621 1121"> <thead> <tr> <th>Name</th> <th>Label</th> <th>Description</th> <th>Type</th> </tr> </thead> <tbody> <tr> <td>Currency</td> <td>Currency</td> <td>Currency</td> <td>String</td> </tr> <tr> <td>Country</td> <td>Country</td> <td>Country</td> <td>String</td> </tr> <tr> <td>TotalCost</td> <td>Total Cost</td> <td>Total cost of investment</td> <td>Number</td> </tr> </tbody> </table>	Name	Label	Description	Type	Currency	Currency	Currency	String	Country	Country	Country	String	TotalCost	Total Cost	Total cost of investment	Number	
Name	Label	Description	Type														
Currency	Currency	Currency	String														
Country	Country	Country	String														
TotalCost	Total Cost	Total cost of investment	Number														
<p>3. Click .</p>																	
<p>4. Click .</p>																	

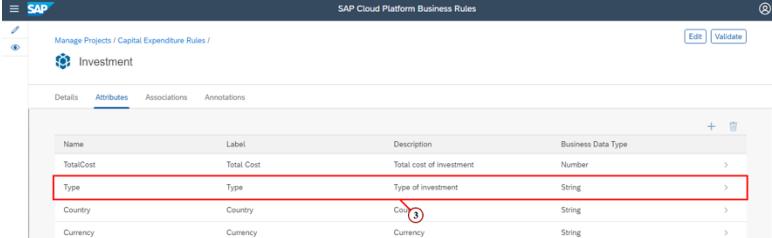

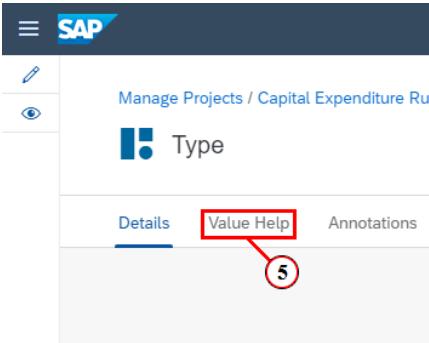

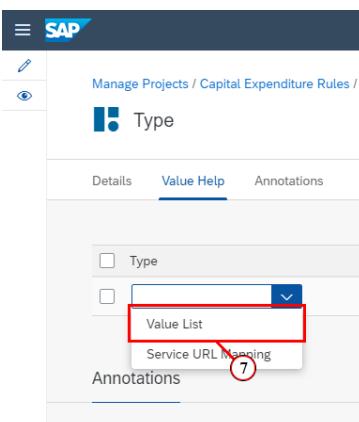

Explanation	Screenshot
<p>5. Click .</p> <p>Note: Ensure that you are in Data Objects tab.</p>	
<p>6. Enter Approvers in Name box.</p> <p>7. Enter Approvers in Label box.</p> <p>8. Enter Detail of investment approvers in Description box.</p>	
<p>9. Click Attributes.</p>	

Explanation	Screenshot																				
<p>10. Repeat the steps to create Approvers data object attributes with following details:</p> <p>Attributes:</p> <table border="1" data-bbox="164 544 616 1364"> <thead> <tr> <th>Name</th> <th>Label</th> <th>Description</th> <th>Type</th> </tr> </thead> <tbody> <tr> <td>cm_userid</td> <td>Central Manager User ID</td> <td>User ID of central manager</td> <td>String</td> </tr> <tr> <td>lm_userid</td> <td>Local Manager User ID</td> <td>User ID of local manager</td> <td>String</td> </tr> <tr> <td>lm_required</td> <td>Local Manager Approval Required</td> <td>Is approval required from local manager?</td> <td>Boolean</td> </tr> <tr> <td>cm_required</td> <td>Central Manager Approval Required</td> <td>Is approval required from central manager?</td> <td>Boolean</td> </tr> </tbody> </table>	Name	Label	Description	Type	cm_userid	Central Manager User ID	User ID of central manager	String	lm_userid	Local Manager User ID	User ID of local manager	String	lm_required	Local Manager Approval Required	Is approval required from local manager?	Boolean	cm_required	Central Manager Approval Required	Is approval required from central manager?	Boolean	
Name	Label	Description	Type																		
cm_userid	Central Manager User ID	User ID of central manager	String																		
lm_userid	Local Manager User ID	User ID of local manager	String																		
lm_required	Local Manager Approval Required	Is approval required from local manager?	Boolean																		
cm_required	Central Manager Approval Required	Is approval required from central manager?	Boolean																		
<p>11. Click Activate.</p>																					
<p>12. Click Capital Expenditure Rules.</p>																					

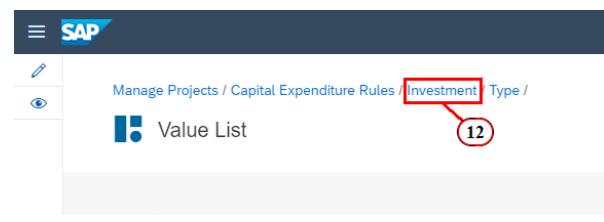

Explanation	Screenshot
<p>You have created and configured data objects in business rules project.</p> <p>Investment data object will be used as <i>Input</i> and Approver data object will be used as <i>Output</i> in the rule service.</p> <p>These data object & their attributes will be used while modelling rule expressions.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. In the top navigation bar, 'Manage Projects / Capital Expenditure Rules' is selected. Below it, the 'Data Objects' tab is active. The interface displays three local data objects: 'Approvers' (Approvers), 'Investment' (Investment), and 'Name'. Each data object has columns for Name, Label, Description, Status, Created On, and Type. The 'Investment' row is highlighted with a red box and a circled number '1' pointing to it.</p>

CONFIGURE VALUE HELP IN DATA OBJECT

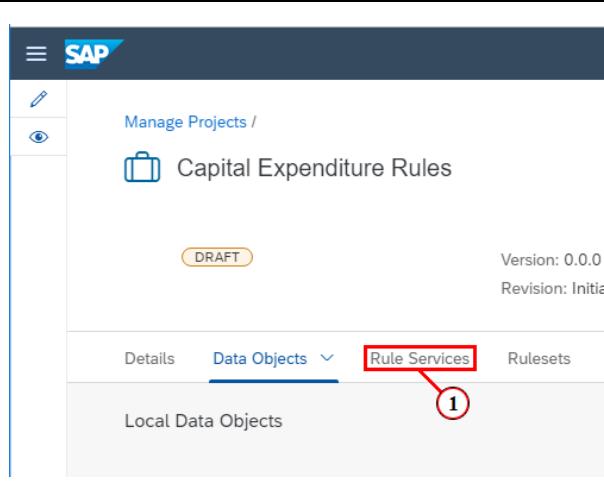

Explanation	Screenshot
<p>13. Click to open Investment data object.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. The 'Investment' data object is selected, indicated by a red box and a circled number '1' pointing to it. The interface shows the 'Details' tab is active, displaying information about the 'Investment' data object.</p>
<p>14. Click Attributes to add attributes to the data object.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. The 'Investment' data object is selected. The 'Attributes' tab is highlighted with a red box and a circled number '2' pointing to it. The interface shows the 'Details' tab is active, displaying information about the 'Investment' data object.</p>

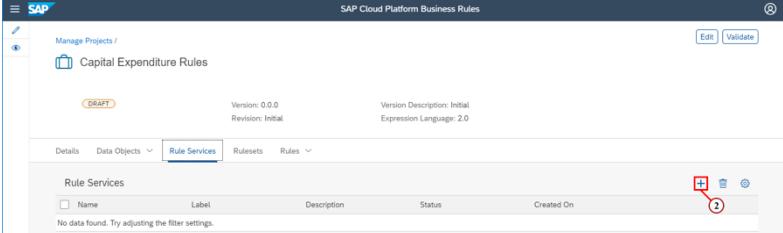

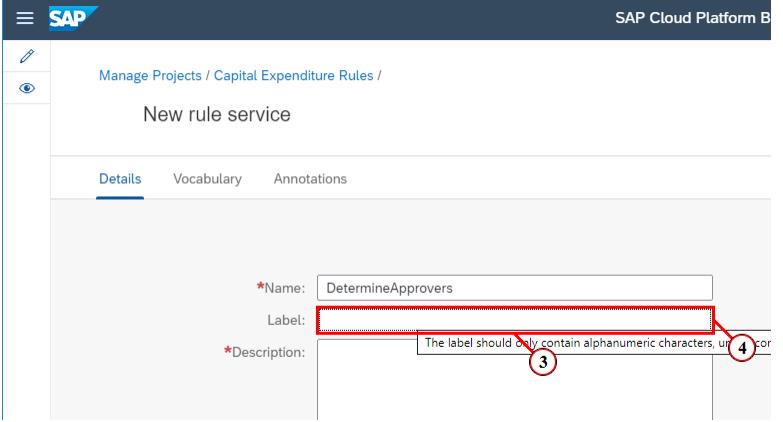

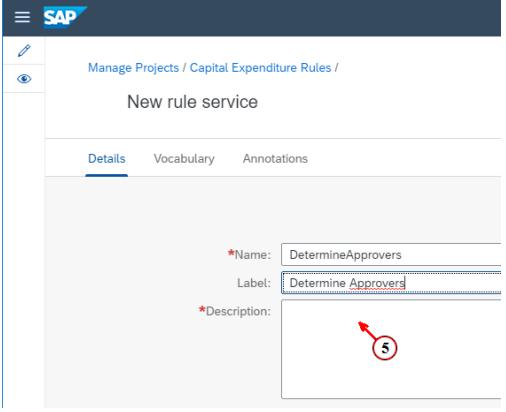

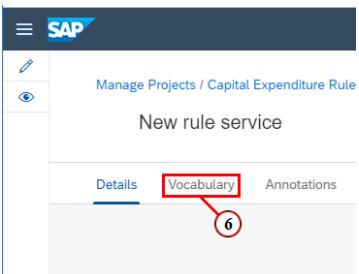

Explanation	Screenshot
15. Click to open Type attribute.	
16. Click Edit .	
17. Click Value Help .	
18. Click + .	
19. Click Value List .	

Explanation	Screenshot										
<p>Note: there are two kinds of value help (a) Static and (b) Dynamic. Dynamic value help can be created with Service URL Mapping and Static can be created with Value List type. In dynamic value you can connect any backend system and make a service call. In this exercise, you will create static value help where you will manually create value-description pair.</p>											
<p>20. Click to on the Value List row.</p>											
<p>21. Click + to add values to the value list.</p>											
<p>22. Click and enter Software in Value and Description box.</p>											
<p>23. Repeat the steps above to add few more values:</p>	<table border="1" data-bbox="164 1417 605 1592"> <thead> <tr> <th data-bbox="164 1417 372 1459">Value</th> <th data-bbox="372 1417 605 1459">Description</th> </tr> </thead> <tbody> <tr> <td data-bbox="164 1459 372 1495">Machinery</td> <td data-bbox="372 1459 605 1495">Machinery</td> </tr> <tr> <td data-bbox="164 1495 372 1531">Building</td> <td data-bbox="372 1495 605 1531">Building</td> </tr> <tr> <td data-bbox="164 1531 372 1567">Equipment</td> <td data-bbox="372 1531 605 1567">Equipment</td> </tr> <tr> <td data-bbox="164 1567 372 1592">Service</td> <td data-bbox="372 1567 605 1592">Service</td> </tr> </tbody> </table>	Value	Description	Machinery	Machinery	Building	Building	Equipment	Equipment	Service	Service
Value	Description										
Machinery	Machinery										
Building	Building										
Equipment	Equipment										
Service	Service										
<p>24. Click Save.</p>											

Explanation	Screenshot
25. Click Investment .	
26. Click Edit .	
27. Click Activate .	
28. Click Capital Expenditure Rules .	

CREATE RULE SERVICE

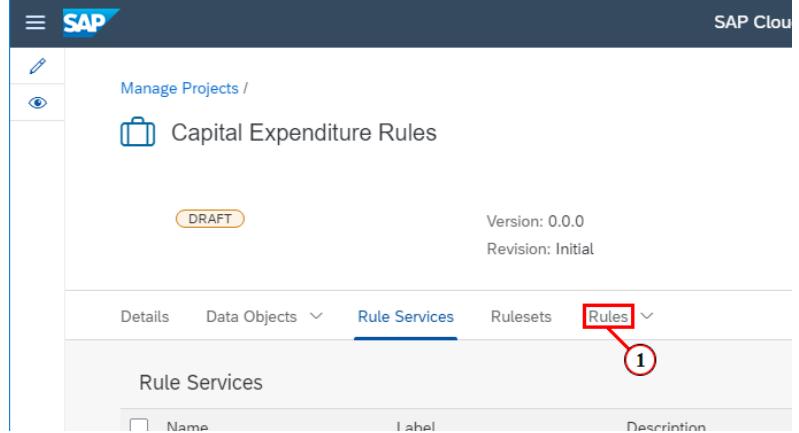

Explanation	Screenshot
29. Click Rule Services .	

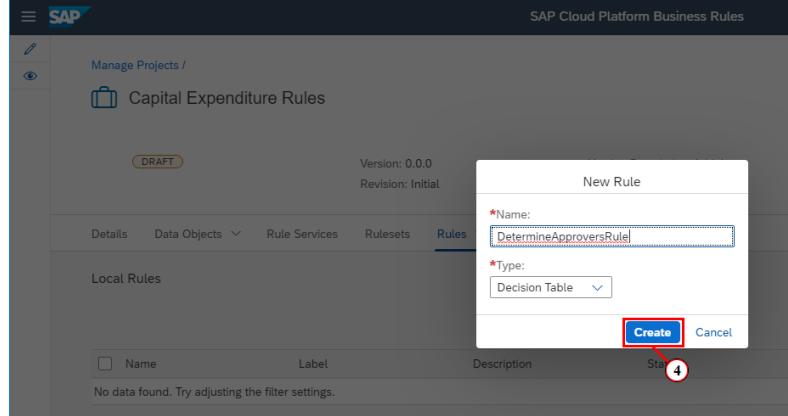

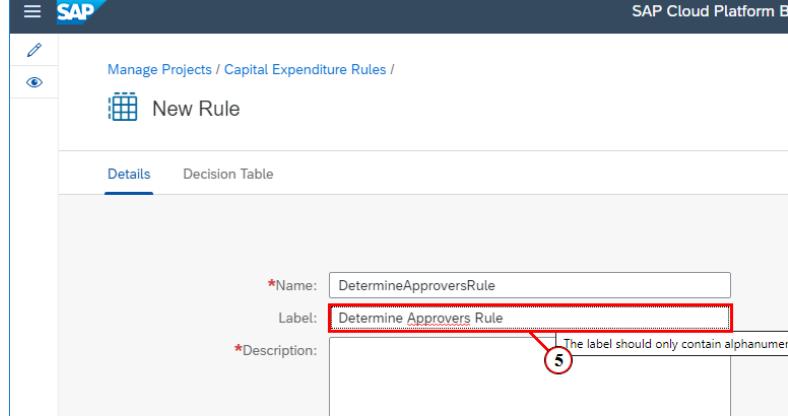

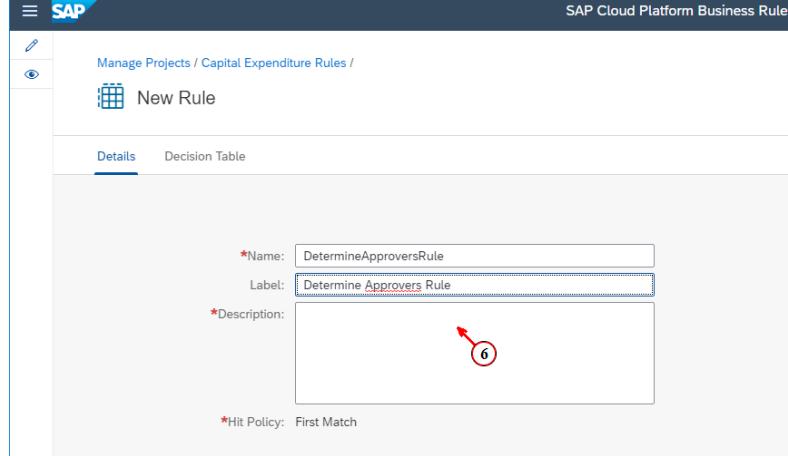

Explanation	Screenshot
<p>30. Create Rule Service.</p> <p>31. Click .</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. In the top right, there are 'Edit' and 'Validate' buttons. Below them, it says 'Version: 0.0.0' and 'Revision: Initial'. The main area is titled 'Rule Services' and contains columns for Name, Label, Description, Status, and Created On. A red box highlights the 'Label' column header, and a red arrow labeled '2' points to it.</p>
<p>53. Click to enter DetermineApprovers in Name box.</p> <p>54. Click to enter Determine Approvers in Label box.</p>	 <p>The screenshot shows the 'New rule service' creation screen. The 'Name' field contains 'DetermineApprovers' and the 'Label' field contains 'Determine Approvers'. A red box highlights the 'Label' field, and a red arrow labeled '3' points to it. A tooltip message 'The label should only contain alphanumeric characters, underscores, and hyphens.' is visible next to the field. The 'Description' field is empty.</p>
<p>55. Click to enter Rule service to determine approvers for new investment in Description box.</p>	 <p>The screenshot shows the 'New rule service' creation screen again. The 'Name' field is 'DetermineApprovers', the 'Label' field is 'Determine Approvers', and the 'Description' field now contains the text 'Rule service to determine approvers for new investment'.</p>
<p>56. Click Vocabulary.</p>	 <p>The screenshot shows the 'New rule service' creation screen with the 'Vocabulary' tab highlighted by a red box and a red arrow labeled '6' pointing to it. The other tabs are 'Details' and 'Annotations'.</p>

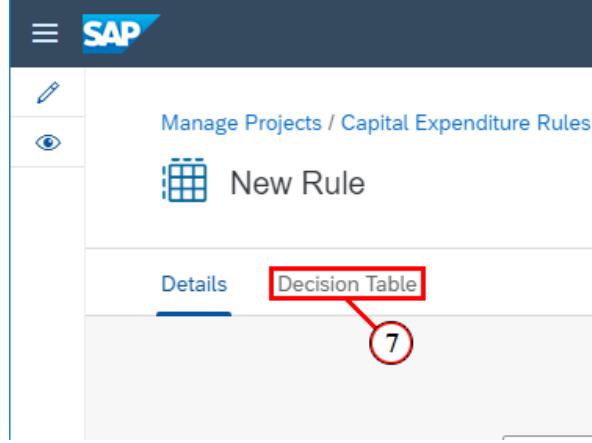

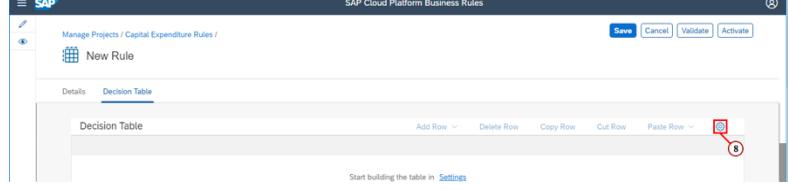

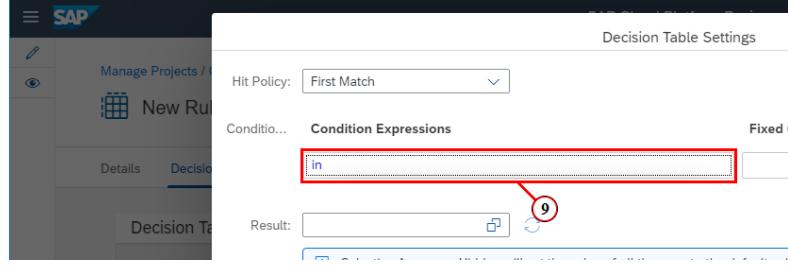

Explanation	Screenshot
57. Click  .	
58. Click to select Investment .	
59. Click to select Input .	
60. Click  .	

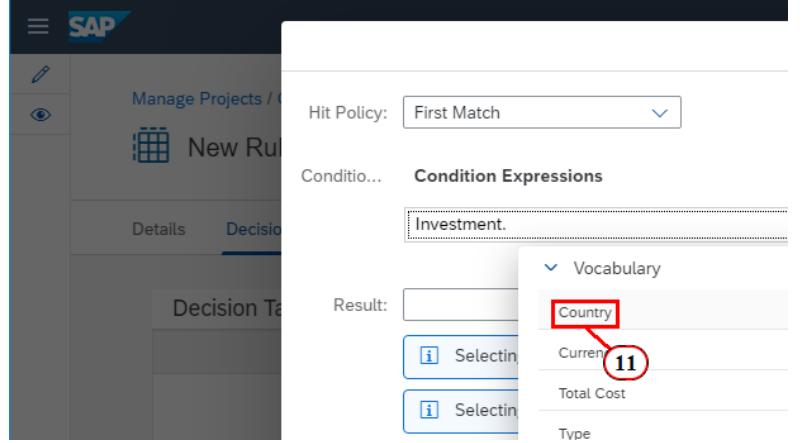

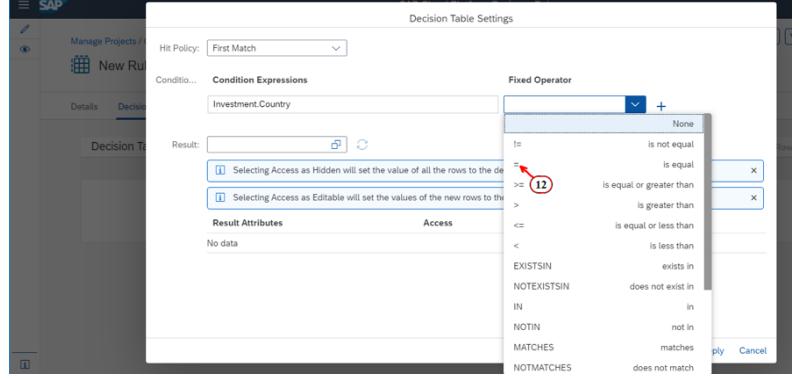

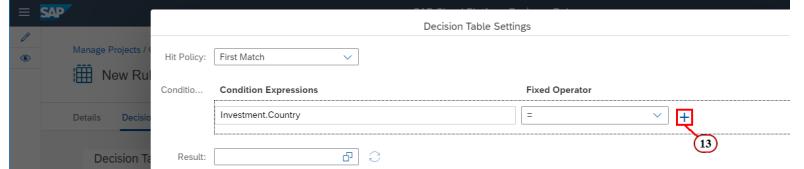

Explanation	Screenshot
61. Click to select Approvers .	
62. Click Result .	
63. Click Activate .	
64. Click Capital Expenditure Rules	
You have created and configured Rule Service which will be finally deployed once we have configured all the rule entity models.	

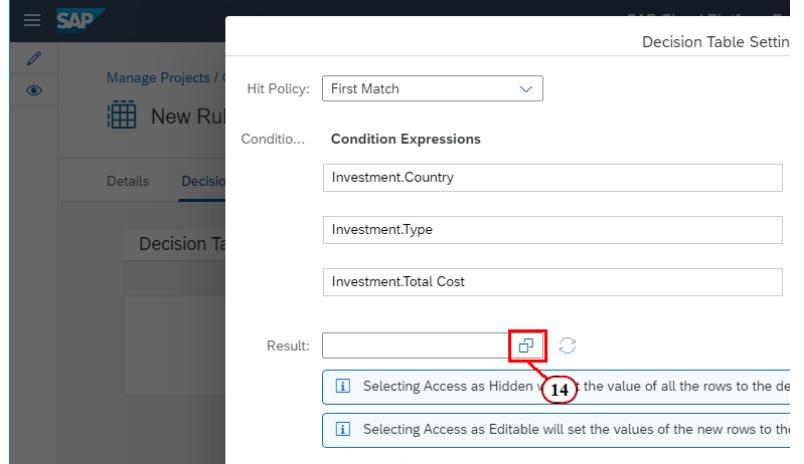

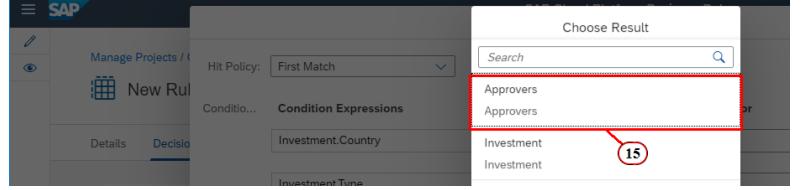

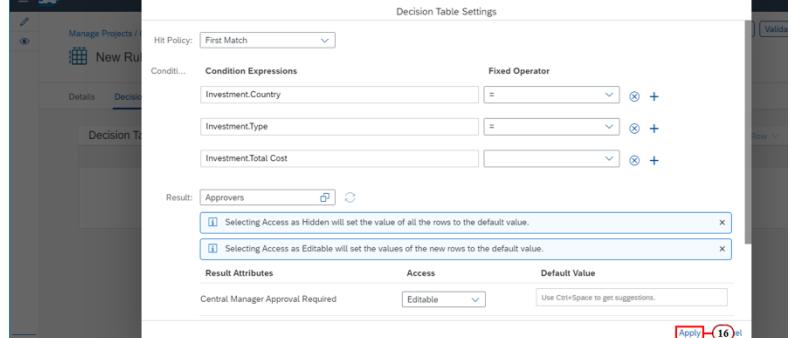

CREATE DECISION TABLE RULE

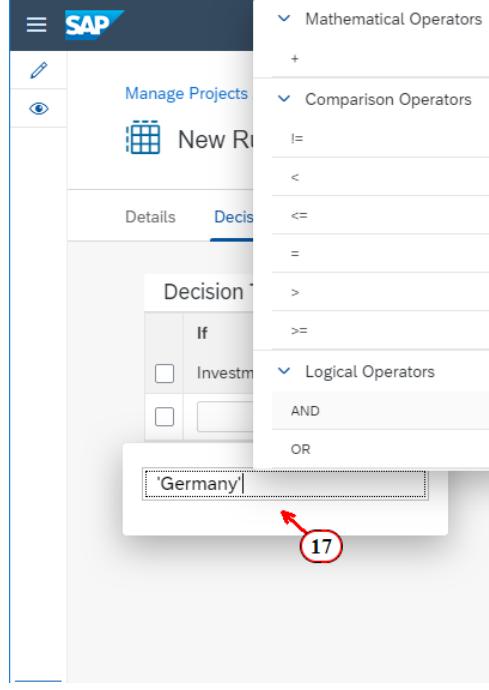

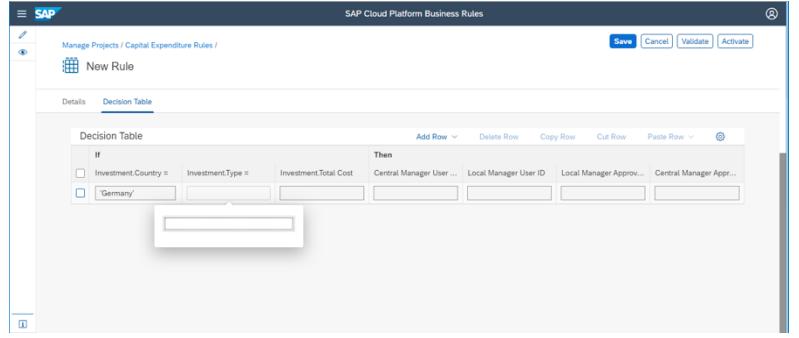

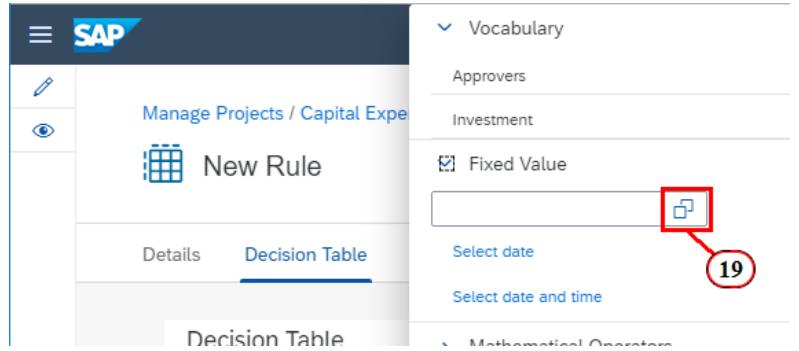

Explanation	Screenshot
<p>65. Click Rules.</p>	
<p>66. Create Rule 67. Click +.</p>	
<p>68. Click to enter DetermineApproversRule in Name box.</p>	

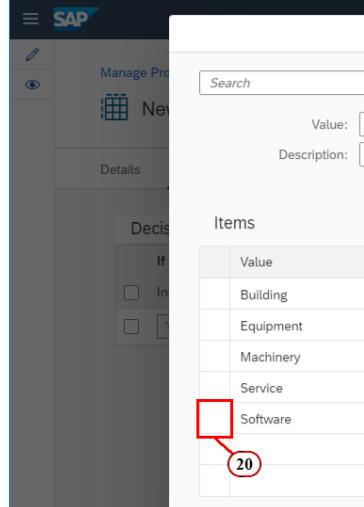

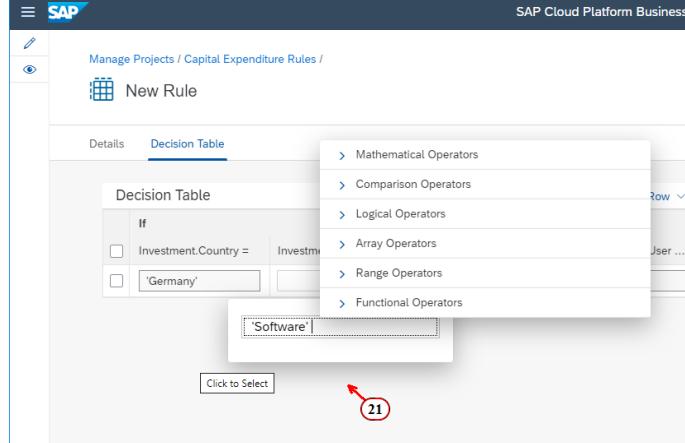

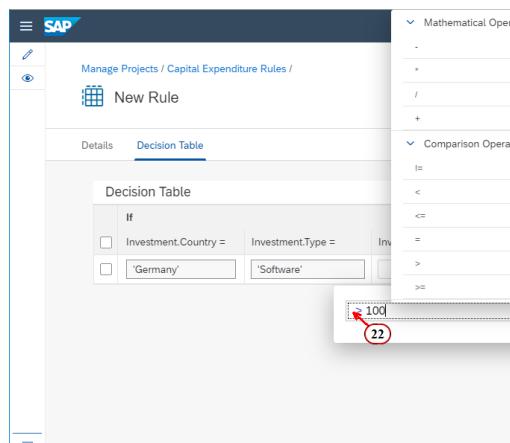

Explanation	Screenshot
<p>69. Click Create.</p>	
<p>70. Click and enter Determine Approvers Rule in Label box.</p>	
<p>71. Click to enter Rules to determine approvers for the new investments based on type, country and total cost of the investment in Description box .</p>	

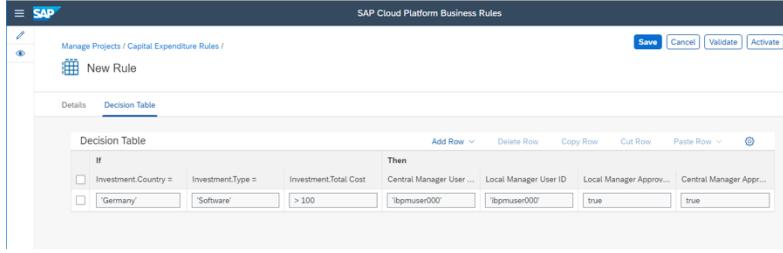

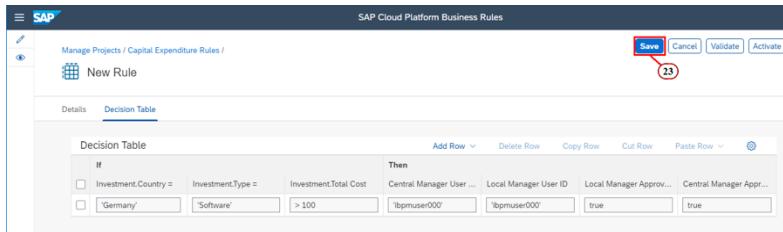

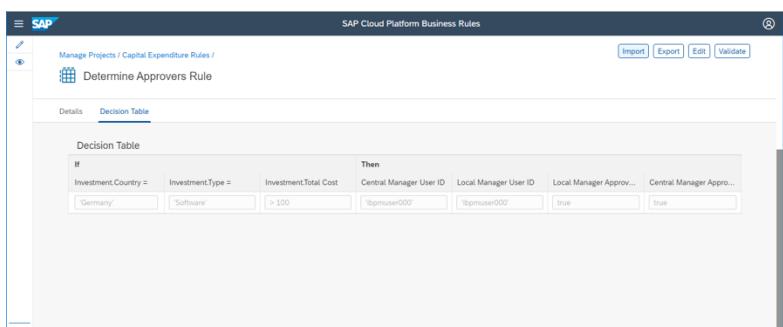

Explanation	Screenshot
72. Click Decision Table .	
73. Click  .	
<p>Note: As you start typing in the Condition Expression box, you will get in-place context help with the list of Vocabulary, Operators and Functions.</p> <p>74. Click and enter in the condition expression box.</p> <p>75. From the in-place context sensitive help options, select Investment > Country</p>	
76. Click Investment .	

Explanation	Screenshot						
77. Click Country .							
78. In Fixed Operator drop down, click = is equal operator.							
79. Click + .							
80. Repeat the steps above to add few more condition expressions as following:	<table border="1" data-bbox="164 1607 567 1776"> <thead> <tr> <th data-bbox="164 1607 409 1676">Condition Expression</th> <th data-bbox="409 1607 567 1676">Fixed Operator</th> </tr> </thead> <tbody> <tr> <td data-bbox="164 1676 409 1712">Investment.Type</td> <td data-bbox="409 1676 567 1712">=</td> </tr> <tr> <td data-bbox="164 1712 409 1776">Investment.Total Cost</td> <td data-bbox="409 1712 567 1776"></td> </tr> </tbody> </table> 	Condition Expression	Fixed Operator	Investment.Type	=	Investment.Total Cost	
Condition Expression	Fixed Operator						
Investment.Type	=						
Investment.Total Cost							

Explanation	Screenshot
<p>81. Click  to select Result data object.</p>	
<p>82. Select or Double-click on Approvers.</p>	
<p>Note: You will notice Access column as the result properties. When you set access as hidden, the respective column will not be seen during rule authoring in decision table.</p> <p>83. Click Apply.</p>	

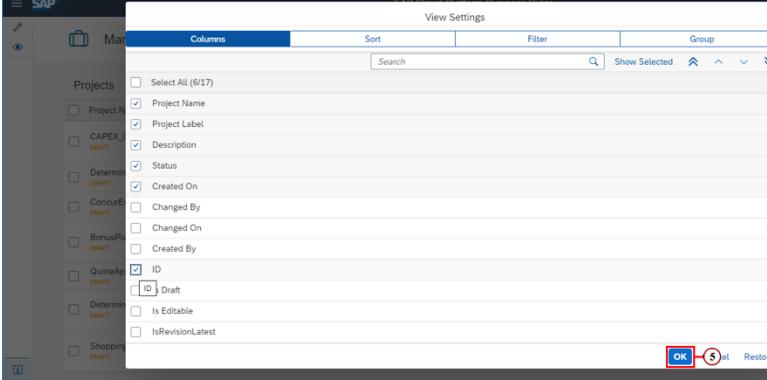

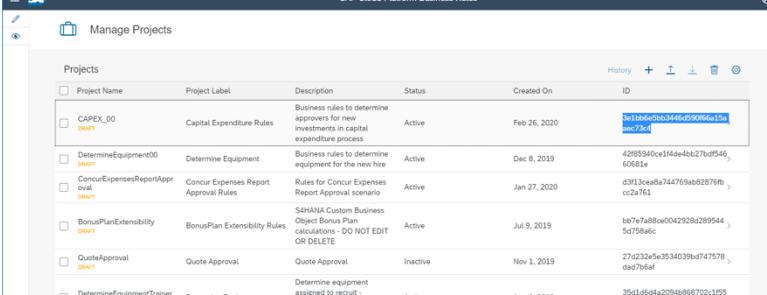

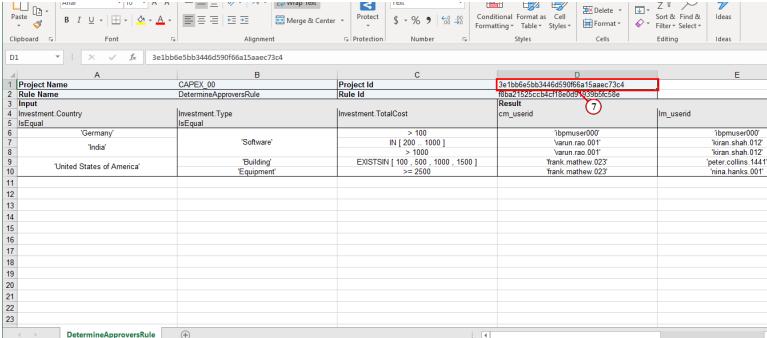

Explanation	Screenshot
<p>84. Click on the input field of Investment.Country column and enter 'Germany'.</p> <p>After you have finished typing, press Enter key to confirm or click outside the input field.</p>	
<p>Note: In this expression, you will choose the value from the value help defined for this attribute.</p> <p>85. Please press Ctrl+ Space or press any key.</p>	
<p>86. Expand Fixed Value and click  to select value help.</p>	

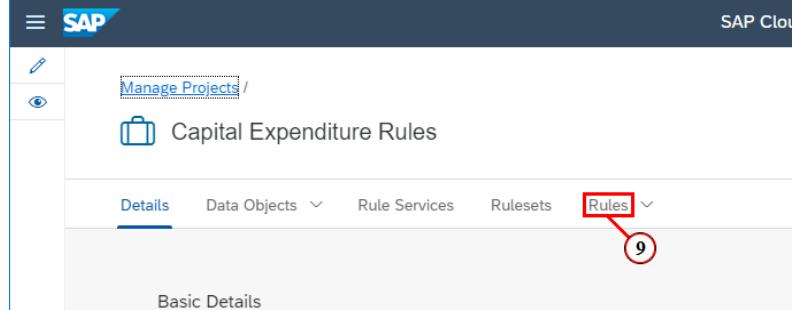

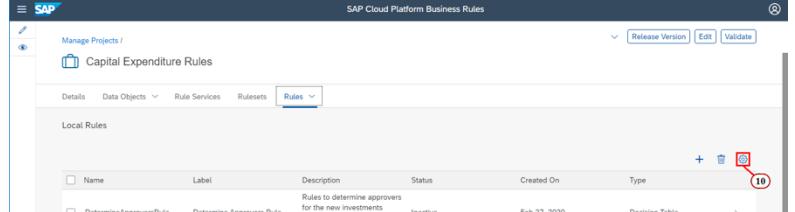

Explanation	Screenshot
<p>87. Click to select Software from the value help.</p>	
<p>88. Click Enter to confirm or click outside the input field.</p>	
<p>89. Click to enter > 100 90. Press Enter to confirm.</p>	

Explanation	Screenshot										
<p>91. Similarly, enter the following expression values for the respective result column:</p> <table border="1" data-bbox="163 506 579 960"> <thead> <tr> <th data-bbox="171 517 350 580">Result Column</th><th data-bbox="350 517 571 580">Expression Value</th></tr> </thead> <tbody> <tr> <td data-bbox="171 580 350 665">Central Manager User ID</td><td data-bbox="350 580 571 665">your trial user number</td></tr> <tr> <td data-bbox="171 665 350 749">Local Manager User ID</td><td data-bbox="350 665 571 749">Your trial user number</td></tr> <tr> <td data-bbox="171 749 350 834">Local Manager Approval Required</td><td data-bbox="350 749 571 834">true</td></tr> <tr> <td data-bbox="171 834 350 960">Central Manager Approval Required</td><td data-bbox="350 834 571 960">true</td></tr> </tbody> </table>	Result Column	Expression Value	Central Manager User ID	your trial user number	Local Manager User ID	Your trial user number	Local Manager Approval Required	true	Central Manager Approval Required	true	
Result Column	Expression Value										
Central Manager User ID	your trial user number										
Local Manager User ID	Your trial user number										
Local Manager Approval Required	true										
Central Manager Approval Required	true										
<p>23. Click Save.</p>											
<p>You have created a decision table-based rule with condition and result columns. You have added a row to the decision table and used in-place context sensitive help to add expressions to the cell values. Now, in next chapter you will use Microsoft Excel to import the data in the decision table.</p>											

IMPORT DECISION TABLE FROM MICROSOFT EXCEL

Explanation	Screenshot
<p>92. Download the DetermineApproversRule excel in the same folder in GitHub.</p> <p>93. Open the excel and update Project Name, Project ID and Rule ID in the available excel sheet as shown in steps below.</p> <p>94. Update project name with your rules project name like CAPEX_00.</p>	
<p>Now, to update the Project ID and Rule ID you have to go back to the Manage Rule Projects.</p> <p>95. Navigate back to projects. 96. Click Manage Projects.</p>	
<p>97. Click </p>	
<p>98. Click </p>	

Explanation	Screenshot
99. Click OK .	
100. Select and press Ctrl+C or Command+C to copy.	
101. Paste the copied Project ID. Note: ensure that there are no leading or lagging space while you do the copy & paste.	
102. Click to open project.	

Explanation	Screenshot
103. Click Rules .	
104. Click  .	
105. Click  .	

Explanation

106. Click **OK**.

Screenshot

107. Select and press **Ctrl+C** or **Command+C** to copy.

108. Paste the Rule ID

Note: ensure that there are no leading or lagging spaces while you do the copy paste

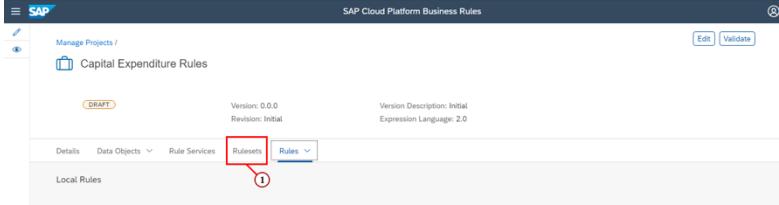

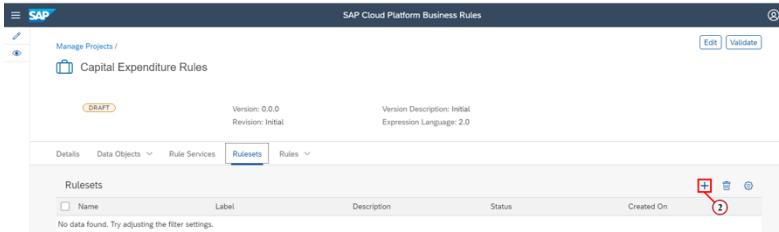

109. Also, change the *cm_userid* and *lm_userid* of the first row (line number 6) to your trial username.

CREATE RULESET

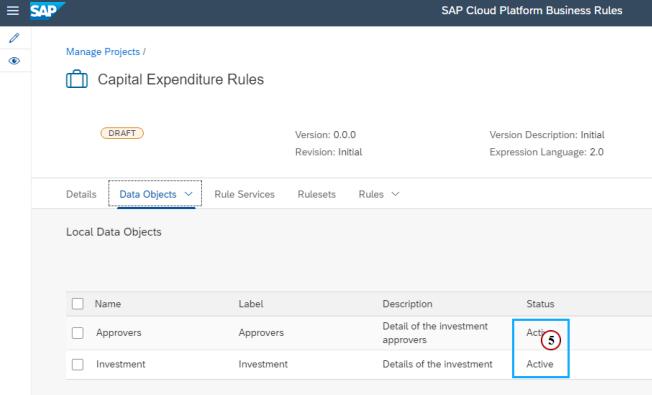

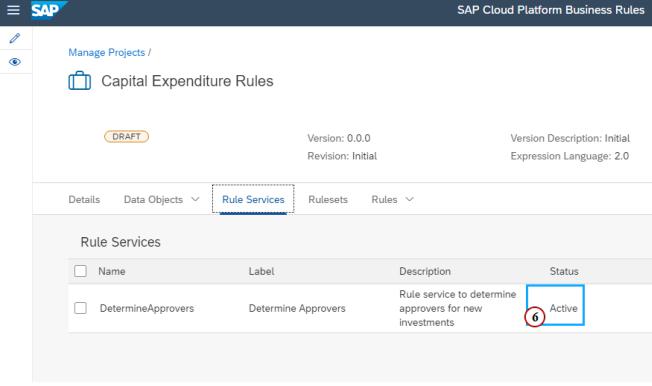

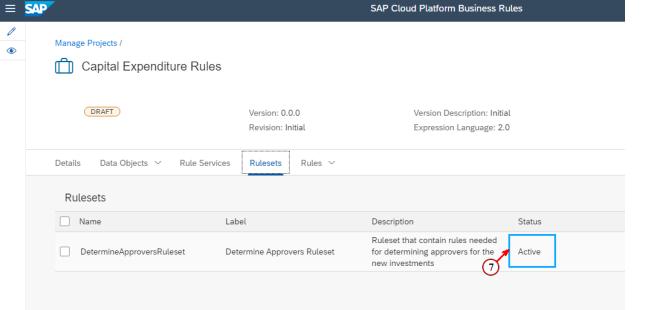

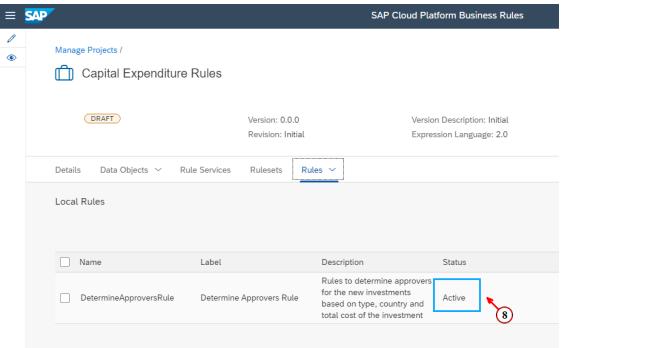

Explanation	Screenshot
<p>117. Click Rulesets.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. The top navigation bar has 'Edit' and 'Validate' buttons. Below it, the project name 'Capital Expenditure Rules' is displayed along with version information: Version: 0.0.0, Revision: Initial, Version Description: Initial, and Expression Language: 2.0. A red box highlights the 'Rulesets' tab in the top navigation bar, which is currently active.</p>
<p>118. Create Ruleset 119. Click .</p>	 <p>The screenshot shows the 'Rulesets' page. The 'Rulesets' tab is selected. A red box highlights the 'Create' button (a plus sign icon) at the bottom right of the table header. The table columns are Name, Label, Description, Status, and Created On.</p>
<p>120. Click to enter DetermineApproversRuleset in Name box.</p>	 <p>The screenshot shows the 'New ruleset' creation screen under the 'Details' tab. The 'Name' field is highlighted with a red box and contains the text 'DetermineApproversRuleset'. A red circle with the number '3' points to the 'Label' field, which is currently empty.</p>
<p>121. Click to enter Determine Approvers Ruleset in Label box.</p>	 <p>The screenshot shows the 'New ruleset' creation screen under the 'Details' tab. The 'Name' field is highlighted with a red box and contains the text 'DetermineApproversRuleset'. The 'Label' field now contains the text 'Determine Approvers Ruleset', indicated by a red box. A red circle with the number '4' points to the 'Description' field, which is currently empty.</p>

Explanation	Screenshot
<p>122. Click to enter Ruleset that contain rules needed for determining approvers for the new investments in Description box.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. A red arrow labeled '5' points to the 'Description' input field, which contains the text: 'Ruleset that contain rules needed for determining approvers for the new investments'.</p>
<p>123. Click to select DetermineApprovers as Rule Service.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. A red box labeled '6' highlights the 'Rule Service' dropdown menu, which is set to 'DetermineApprovers'.</p>
<p>124. Click Rules.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. A red box labeled '7' highlights the 'Rules' tab, which is currently selected.</p>
<p>125. Click Add Rule.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. A red box labeled '8' highlights the 'Add Rule' button in the top right corner of the table header.</p>

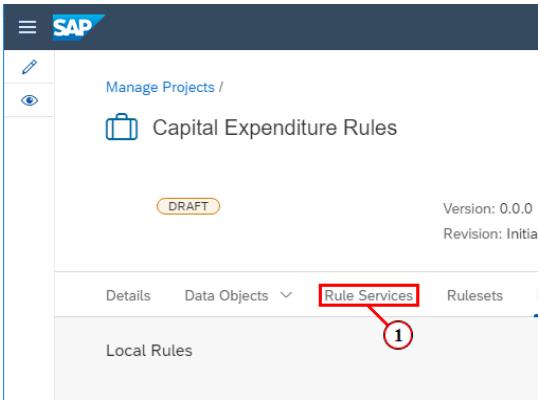

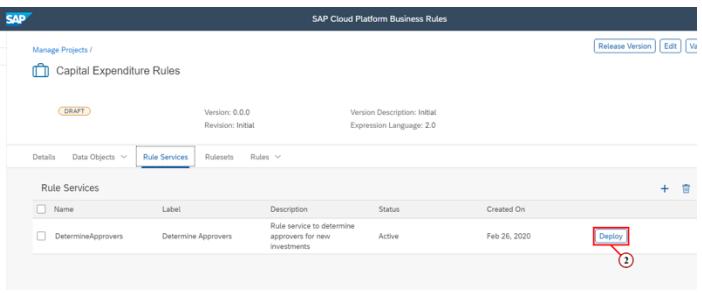

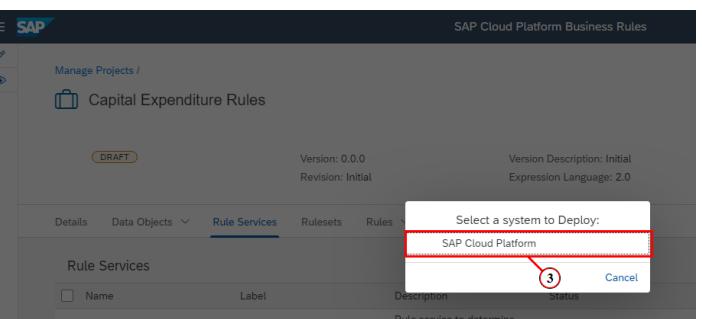

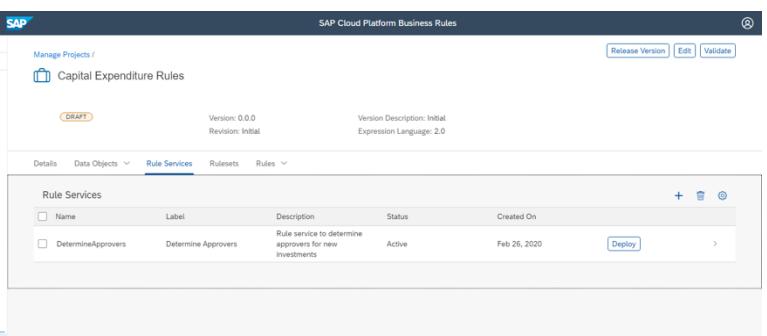

Explanation	Screenshot
126. Click Insert First	
127. Click to select Determine Approvers Rule	
128. Click Activate	
129. Click Capital Expenditure Rules	
You have created the ruleset, associated it with rule service and added the rule. Ruleset is a collection of rules of similar output.	

ACTIVATE RULES PROJECT

Explanation	Screenshot
<p>Before you deploy the rule service, all the rule entity models have to be in activated state. In this chapter, you will go through all the models to ensure that they are activated.</p> <p>130. Click Details.</p>	
<p>131. Click Edit.</p>	
<p>132. Click Activate.</p>	
<p>133. Click Data Objects.</p>	

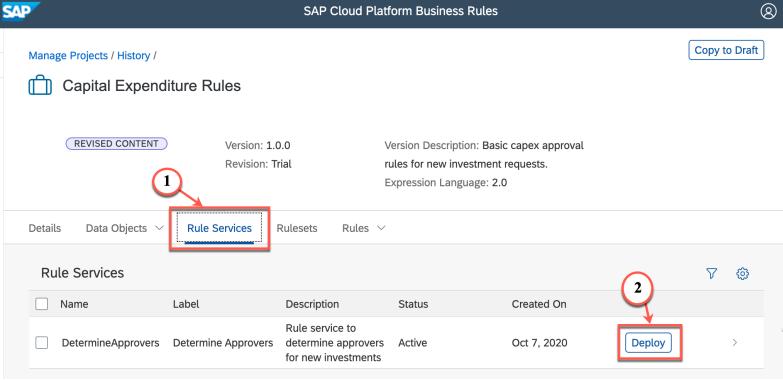

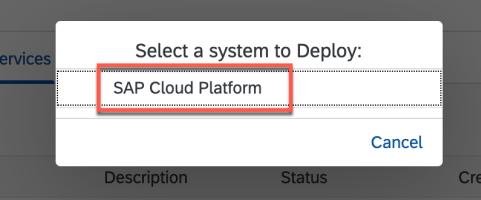

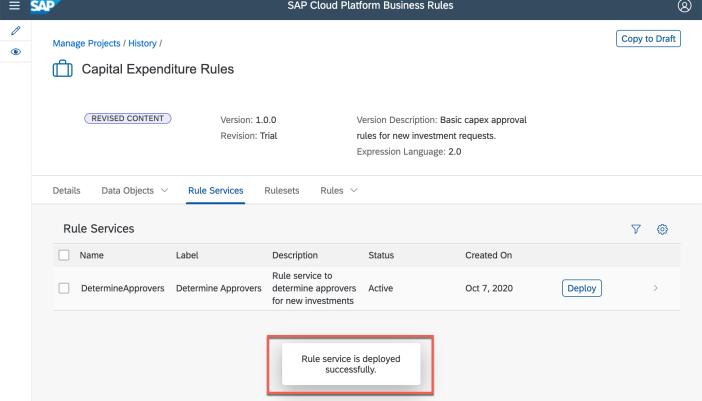

Explanation	Screenshot												
<p>134. Check if all the data objects are in Active state.</p>	 <table border="1"> <thead> <tr> <th>Name</th> <th>Label</th> <th>Description</th> <th>Status</th> </tr> </thead> <tbody> <tr> <td>Approvers</td> <td>Approvers</td> <td>Detail of the investment approvers</td> <td>Active (5)</td> </tr> <tr> <td>Investment</td> <td>Investment</td> <td>Details of the investment</td> <td>Active</td> </tr> </tbody> </table>	Name	Label	Description	Status	Approvers	Approvers	Detail of the investment approvers	Active (5)	Investment	Investment	Details of the investment	Active

DEPLOY RULE SERVICE

Explanation	Screenshot
138. Click Rule Services.	
139. Click Deploy.	
140. Click SAP Cloud Platform to deploy the rule service.	
141. After the ruleset is deployed successfully, you will see the message. Now, the rule service can be consumed via the REST APIs	

CREATE VERSION

Explanation	Screenshot
<p>142. Click on Details tab</p> <p>143. Click Release Version to create a new version of the rules project.</p>	 <p>The screenshot shows the SAP Cloud Platform Business Rules interface. A red box highlights the 'Details' tab in the navigation bar. Another red box highlights the 'Release Version' button in the top right corner. A circled number '2' points to the 'Release Version' button.</p>
<p>144. Enter the following in the Release Version pup-up:</p> <p>Version: 1.0.0 Revision: Trial Description: Basic capex approval rules for new investment requests.</p> <p>145. Click Release</p>	 <p>The screenshot shows a 'Release Version' dialog box. It contains three input fields: 'Version' (1.0.0), 'Revision' (Trial), and 'Description' (Basic capex approval rules for new investment requests). Below the description field is a note '200 characters remaining'. At the bottom are 'Release' and 'Cancel' buttons.</p>
<p>146. To view the version created, navigate back to main page by clicking on Manage Projects link on top-left corner of the screen</p> <p>147. Click the checkbox of the business rules project for which you created the version.</p> <p>148. Click History.</p>	 <p>The screenshot shows the 'Manage Projects' page. A red box highlights the checkbox next to the 'CAPEX_00' project row. Another red box highlights the 'History' button in the top right corner of the table header. A circled number '2' points to the 'History' button.</p>

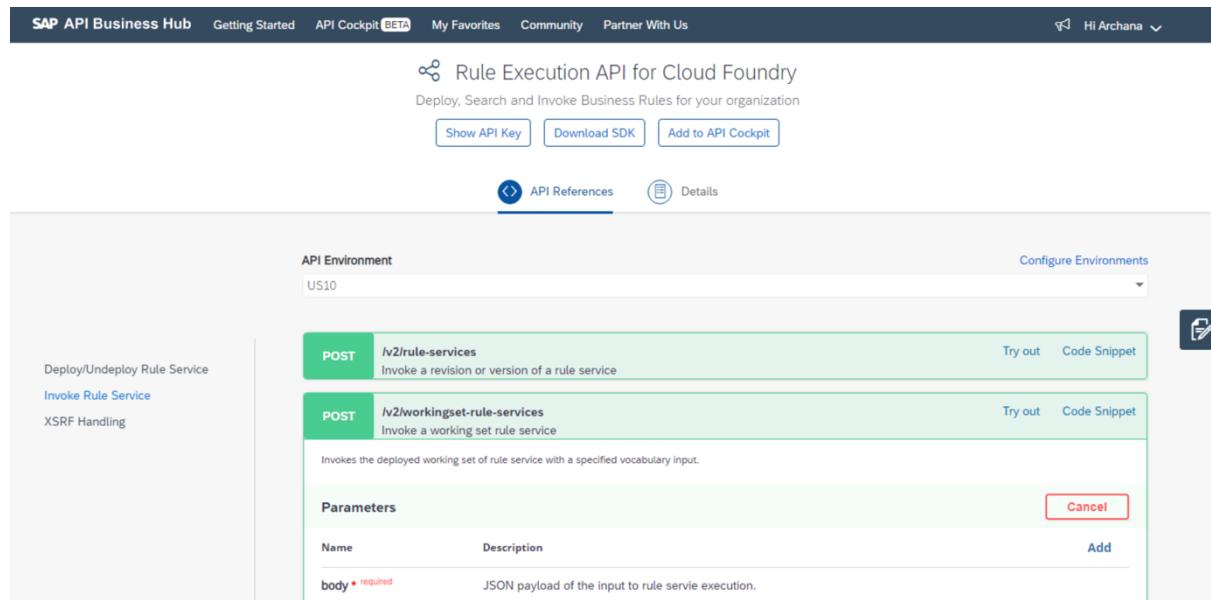

Explanation	Screenshot										
<p>You will see all the versions of the rule Project created here.</p> <p>149. Click to navigate into version 1.0.0</p>	 <table border="1"> <thead> <tr> <th>Version</th> <th>Revision</th> <th>Description</th> <th>Changed By</th> <th>Changed On</th> </tr> </thead> <tbody> <tr> <td>1.0.0</td> <td>Trial</td> <td>Basic capex approval rules for new investment requests.</td> <td>Archana</td> <td>Oct 7, 2020</td> </tr> </tbody> </table>	Version	Revision	Description	Changed By	Changed On	1.0.0	Trial	Basic capex approval rules for new investment requests.	Archana	Oct 7, 2020
Version	Revision	Description	Changed By	Changed On							
1.0.0	Trial	Basic capex approval rules for new investment requests.	Archana	Oct 7, 2020							
<p>150. Click Rule Services tab.</p> <p>151. Click Deploy.</p>											
<p>152. Click SAP Cloud Platform to deploy the rule service.</p>											
<p>153. After the rule service is deployed successfully, you will see the message.</p> <p>Now, the rule service can be consumed via the REST APIs</p>											

TEST BUSINESS RULE

OVERVIEW

Estimated time: 15 minutes

In the following exercise you will learn the basics of testing business rules invocation from APIs available in SAP API Business Hub.

The screenshot shows the SAP API Business Hub interface. At the top, there is a navigation bar with links for SAP API Business Hub, Getting Started, API Cockpit (BETA), My Favorites, Community, and Partner With Us. On the right, it says "Hi Archana". Below the navigation bar, there is a search bar with the placeholder "Rule Execution API for Cloud Foundry" and a subtitle "Deploy, Search and Invoke Business Rules for your organization". There are three buttons below the search bar: "Show API Key", "Download SDK", and "Add to API Cockpit". Underneath this, there are two tabs: "API References" (which is selected) and "Details". The main content area is titled "API Environment" with "US10" selected. It lists two API endpoints:

Method	Endpoint	Description	Try out	Code Snippet
POST	/v2/rule-services	Invoke a revision or version of a rule service	Try out	Code Snippet
POST	/v2/workingset-rule-services	Invoke a working set rule service	Try out	Code Snippet

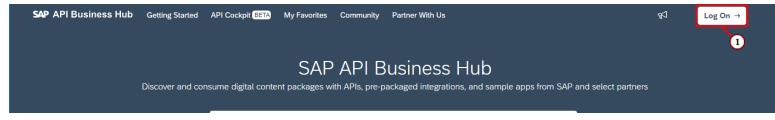

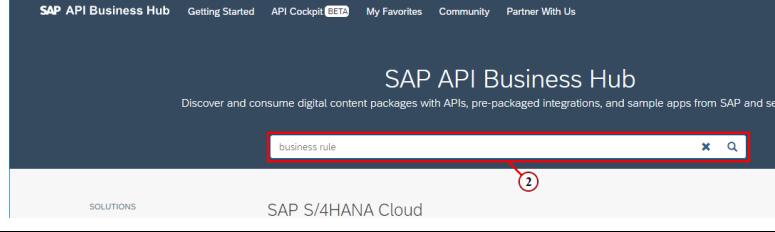

For the first endpoint, there is a note: "Invokes the deployed working set of rule service with a specified vocabulary input." Below the endpoints, there is a section titled "Parameters" with a "Cancel" button. It shows a table with columns "Name" and "Description". A row for "body" is marked as required and has a note: "JSON payload of the input to rule service execution." To the right of the table is an "Add" button.

Exercise Description

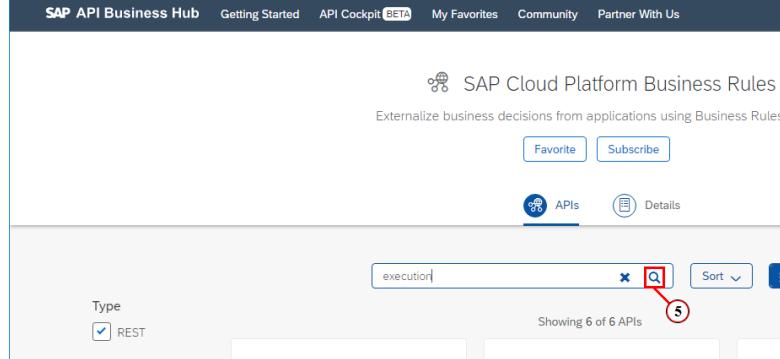

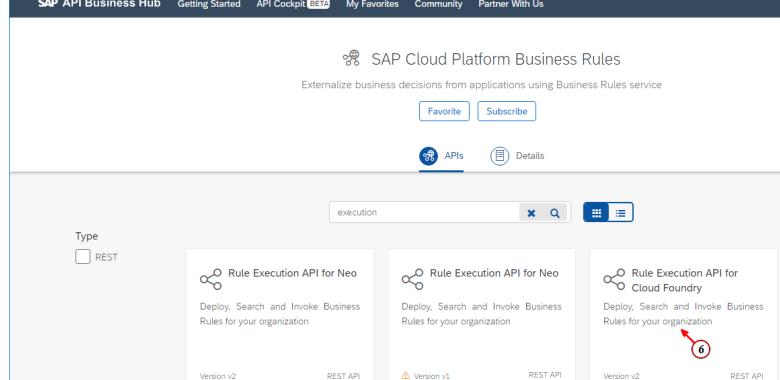

In this exercise you will do the following:

- Discover Business Rules API in SAP API Business Hub
- Configure Cloud Foundry Test Environment
- Invoke Business Rules

DISCOVER BUSINESS RULES API

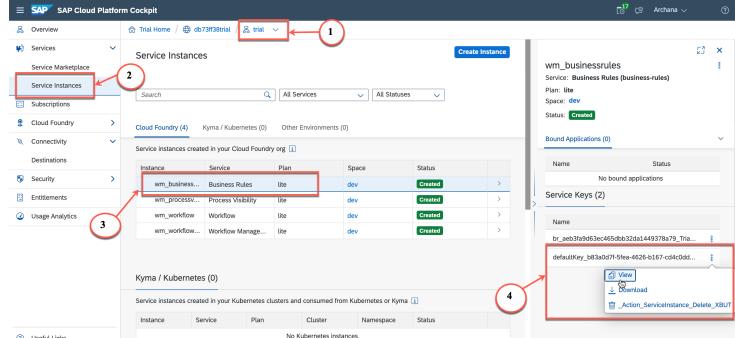

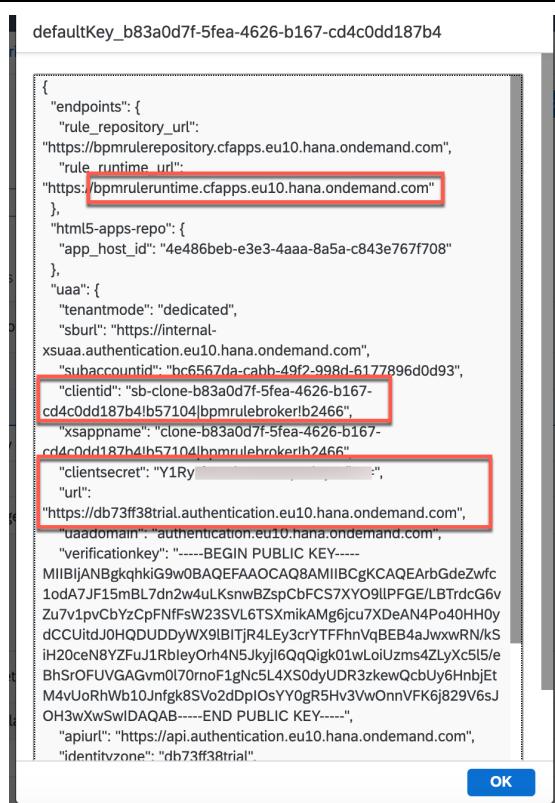

Explanation	Screenshot
<p>154. Open API Business Hub using this URL: https://api.sap.com</p> <p style="text-align: center;">Log On →</p> <p>155. Click Log On.</p>	
<p>156. using your S or P user ID</p>	
<p>157. Search Business Rules API 158. In Search box, enter business rule and press Enter key to search.</p>	
<p>159. Click SAP Cloud Platform Business Rules API Package.</p>	
<p>160. Enter execution in the  box.</p>	

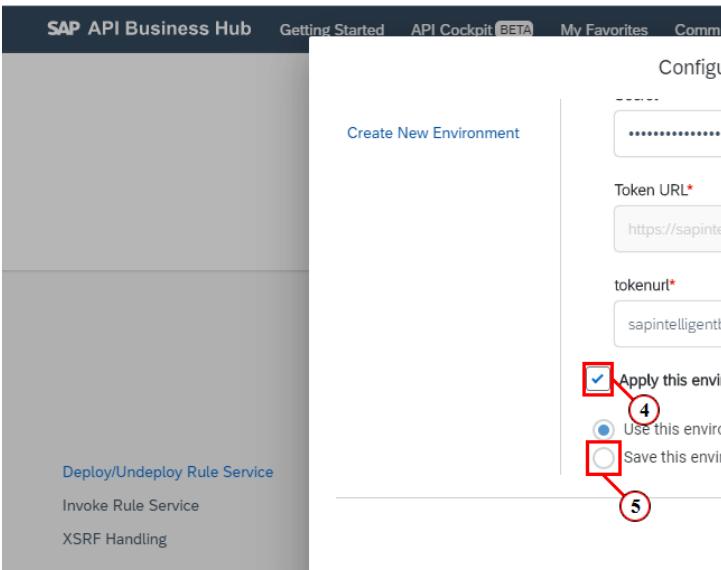

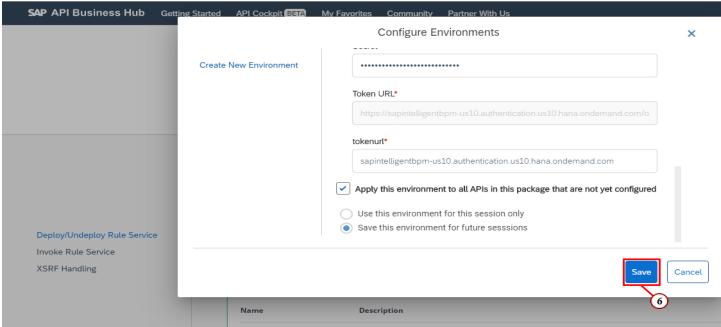

DEV163 - Build a Workflow from Scratch with SAP Cloud Platform Workflow Management

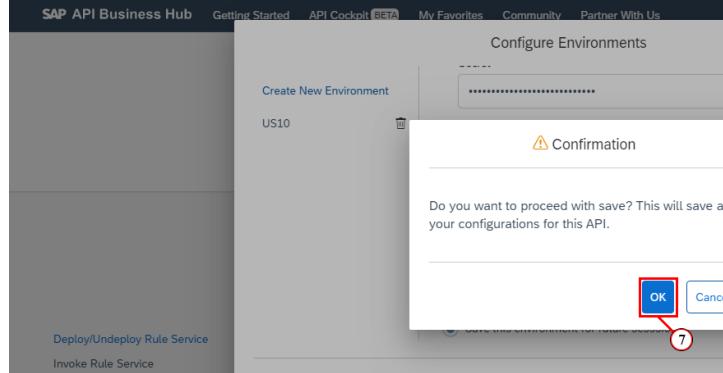

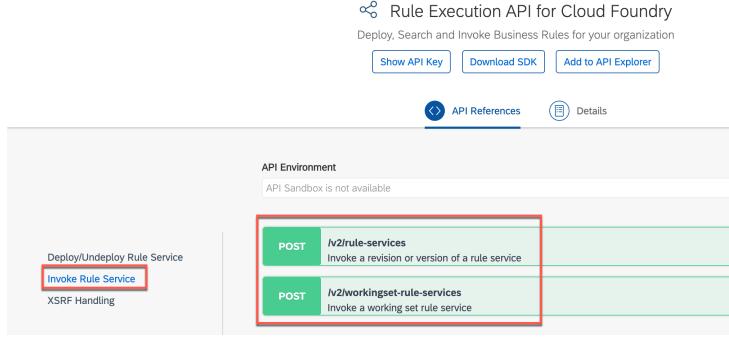

Explanation	Screenshot
<p>Note: Business Rules have two set of APIs: Authoring and Execution. You will also notice two set of versions v1 and v2. Version v1 is currently deprecated and will soon be unsupported.</p> <p>161. Click  to search the execution APIs.</p>	
<p>162. Click on Rule Execution API for Cloud Foundry version v2 APIs.</p>	

CONFIGURE TEST ENVIRONMENT

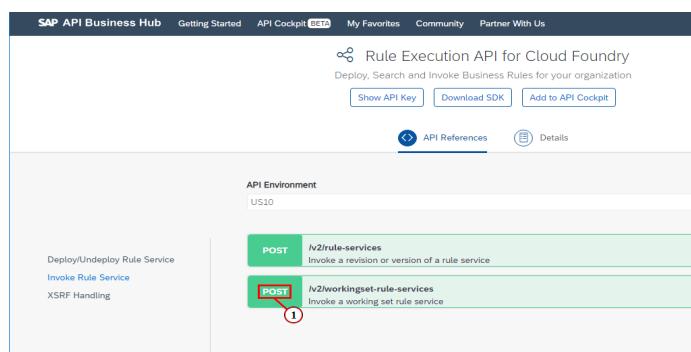

Explanation	Screenshot
<p>163. Click Configure Environments.</p>	

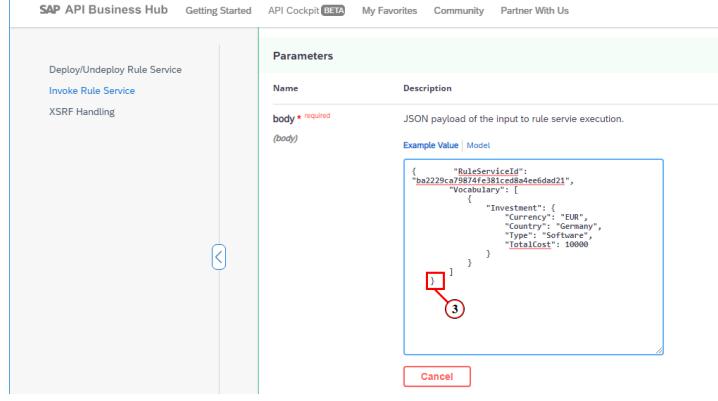

Explanation	Screenshot
<p>Fetch the information from Business Rules service instance key to configure the API Hub environment. To do so,</p> <p>164. Login to your cloud platform trial account and navigate into your sub-account.</p> <p>165. From left panel, click Service Instances.</p> <p>166. From among the available instances, click on wm_businessrules instance to view service keys.</p> <p>167. From available service keys, click  on any service key and select View.</p>	
<p>168. Copy the</p> <ul style="list-style-type: none"> ○ rule_runtime_url, ○ clientid, ○ clientsecret, ○ url (this is token url) <p>These will be used to configure the testing environment in API Business Hub.</p>	 <pre>{ "endpoints": { "rule_repository_url": "https://bpmrulerrepository.cfapps.eu10.hana.ondemand.com", "rule_runtime_url": "https://bpmruleruntime.cfapps.eu10.hana.ondemand.com" }, "html5-apps-repo": { "app_host_id": "4e486beb-e3e3-4aaa-8a5a-c843e767f708" }, "uaa": { "tenantmode": "dedicated", "sburl": "https://internal-xsuaa.authentication.eu10.hana.ondemand.com", "subaccountid": "bc6567da-cabb-49f2-998d-6177896d0d93", "clientid": "sb-clone-b83a0d7f-5fea-4626-b167-cd4c0dd187b4!bpmrulebroker!b2466", "xsappname": "clone-b83a0d7f-5fea-4626-b167-cd4c0dd187b4!bpmrulebroker!b2466" }, "clientsecret": "1RY-----", "url": "https://db73ff38trial.authentication.eu10.hana.ondemand.com", "uaadomain": "authentication.eu10.hana.ondemand.com", "verificationkey": "-----BEGIN PUBLIC KEY-----\nMIIBjANBkgqhkIG9w0BAQEFAOCAQ8AMIBCgKCAQEArbGdeZwf\n1odA7JF15mB7dn2w4uLksnwBZspCbFCS7XYO9lIPFGE/LBTrdcG6v\nZu7vpCvbYzCpFNfFsW23SVL6TSMikAMg6icu7XDeAN4Po40HOy\ndCCUiIdJ0HQDUDdyWX9lBTjR4LEy3crYTFhnVqBEB4aJwxwRN/kS\niH20ceN8YZFuJ1RbleyOrh4N5JkjjI6QqQigk01wLuiUzms4ZLyxc5i5/e\nBhSrOFUVGAvgm0l70rn0F1gNc5L4XS0dyUDR3zkewQcbUy6HnbjEt\nM4VuOrhWb1.0Jngk8SVo2dDplOsYY0gr5Hv3VwOnnVFK6j829V6sJ\nOH3wXwSwIDAQAB-----END PUBLIC KEY-----", "apiurl": "https://api.authentication.eu10.hana.ondemand.com", "identityzone": "db73ff38trial" }</pre>

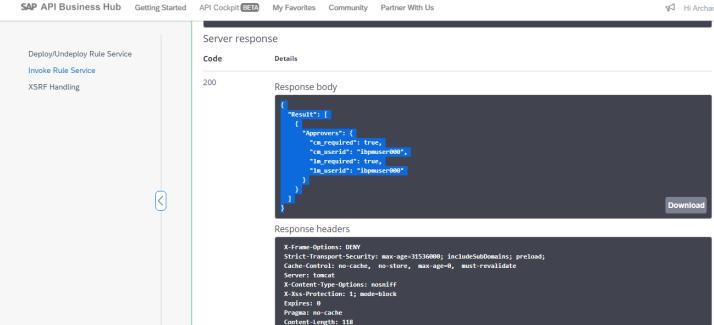

Explanation	Screenshot
<p>169. Set configuration properties</p> <p>Enter the respective details in the configuration properties as copied from the business rules service key in previous step:</p> <ul style="list-style-type: none"> • Display Name: Trial • runtimeurl: <as copied above> • Client Id: <as copied above> • Secret: <as copied above> <p>Press Tab to move to next property.</p>	
<p>170. Enter the following as token url and other standard properties:</p> <p>tokenurl: <as copied above></p> <p>Note: please remove https:// from the token url and copy the rest.</p> <p>For Example: If the URL is https://db73ff38trial.authentication.eu10.hana.ondemand.com</p> <p>Then token URL will be: db73ff38trial.authentication.eu10.hana.ondemand.com</p> <p>171. Click  for Apply this environment to all APIs.</p> <p>172. Click  for Save this environment for future sessions.</p>	
<p>173. Click .</p>	

Explanation	Screenshot
<p>174. Click OK.</p>	
<p>There are two kinds of runtime APIs.</p> <ul style="list-style-type: none"> ○ The first one is for versioned invocation which means if you have deployed any version of the rule service and want to invoke it. ○ The second one is for the working set invocation which means that you do not have any version but have deployed the working set directly. <p>175. From the left options, click Invoke Rule Service.</p>	

INVOKING BUSINESS RULES

Explanation	Screenshot
<p>176. Click POST of /v2/working-set-rule-services API.</p>	

Explanation	Screenshot
<p>177. Execute Working Set API</p> <p>178. Click Try out.</p>	
<p>179. Press Tab until you reach the body section.</p> <p>180. In the body section, Copy & Paste this text:</p> <pre data-bbox="197 798 621 1227">{ "RuleServiceId": "ba2229ca79874fe381ced8a4ee6dad21", "Vocabulary": [{ "Investment": { "Currency": "EUR", "Country": "Germany", "Type": "Software", "TotalCost": 10000 } }] }</pre> <p>Replace the RuleServiceId with rule service id of your rules project.</p>	
<p>181. Click Execute.</p>	

Explanation	Screenshot
<p>You will see the response after the successful rule execution.</p> <p>Try and change the country to “India” in the input body, and you will see a different response.</p>	 <pre> { "Result": [{ "Response": { "IsRequired": true, "IsService": "BusinessRules", "IsRequired": true, "IsService": "BusinessRules" } }] } </pre>

SUMMARY

You have completed the exercise!

You are now able to:

- Create & Activate Project, Data Object, Ruleservice, Ruleset and Rules.
- Configure Value Help in Data Object.
- Use Microsoft Excel Import/Export functionality in Decision Table.
- Deploy Ruleservice in SAP Cloud Platform.
- Discover Business Rules API in SAP API Business Hub.
- Configure Test Environment for Cloud Foundry.
- Execute Business Rules Execution API.
